

# ST. STEPHEN'S CATHEDRAL

This cathedral is one of the four main ones. This was very essential to the town because it was a place of comfort and worship. This wonderful place is said to contain many ancient and holy relics. That have been with the real Lord and savior.

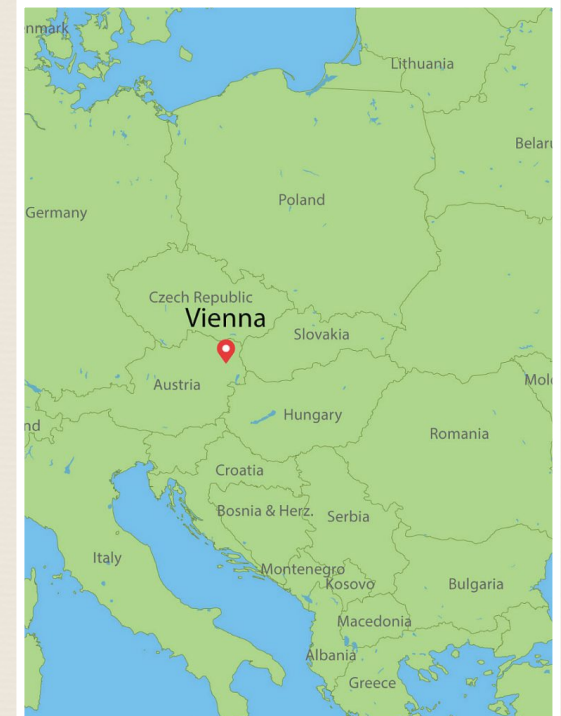

## HISTORY

This city was formed when the Celts settled on the Danube River. Then Roman soldiers responded with building a frontier city to defend themselves from any possible threat to their empire. This is really what started/kicked off the city into what it is today.

## VIENNA

Vienna is located in Europe, and it's in the wonderful country of Austria. They are near northeastern Austria.

# PHYSICAL FEATURES

There are many features that make Vienna into what it is. One of the main features is the Danube river. This river is what started Vienna into a city. If this river wasn't located where it is Vienna probably wouldn't exist. This started when the Roman set up a city to defend themselves. Then it just grew and grew to the point where it became an amazing city.

# LIFESTYLE

A typical day in Vienna would be not like any other. It is filled with many fun and exciting people. When you live in Vienna you basically live in the worlds most lively market. You will tend to see multiple shops and small markets. This city was also expanding by the second so you would see lots of building being built.
